Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Leave the Tracfone alone! The telephone communication systems are already a mess due to greed. You would think someone would get a clue! That if anyone offers the consumers a better deal, we would jump at it..as soon as we find an alternative some joker wants to jump in and mess it up..Let's clean up the communications snafu and start thinking fairly for the little guy and struggling families.

I am sure you can find those dollars elsewhere instead of being lead around by the nose by the bully telephone mega-companies..Come on let's think outside of the box for a change, have a little backbone and stand up and be counted as an honest and fair organization for a change.

Sincerely.

A satisfied Tracfone customer. Have a nice day:-)

p.s. My 12 siblings and I (all baby-boomers) have over 60 children some adopted and most of their children (I won't go into how many more that equates too) are of voting age as well. We are spread out over the U.S. many have already served their country and we have a few getting ready to. We encourage all to vote and to express their opinions esp. to there local Government.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
